Bachelor of Computer Science – *83.470 cGPA*                                                 Windsor, ON

**St. Clair College**                                                             **Sept 2019 – Apr 2022**
Mobile Applications Development (Advanced Diploma) – *3.85/4.0 GPA*                           Windsor, ON

## PROJECTS

**Sweet Treats**
- Dessert Recipes website for managing recipes with implemented login system and comment system.

**React Portfolio Website**
- Fully responsive portfolio website made using React. This was my previous portfolio.

**LoveBirds Wedding Planner**
- An effective wedding planner app made using Flutter.

**moodlog**
- An interactive UI to log all of your moods.

**FruitMania: A Space Adventure**
- A 2D pixelated adventure game made using Unity. Consists of item collection, enemy range detection, moving obstacles, and progressive difficulty with each level reached.

**LoveBirds Wedding Planner**
- A simple and effective wedding planner app that helps you conveniently plan your wedding.

**foodstuffs**
- An iOS app for managing your grocery list.
